Voorhees Business Association Hosts Annual Business Summit

April 8, 2010, Voorhees, NJ - U.S. Congressman John Adler, 3rd Congressional District, NJ State Senator James Beach, 6th Legislative District, Camden County Freeholder Director Louis Cappelli and Voorhees Township Mayor Michael Mignogna joined the Voorhees Business Association for their 2nd Annual Business Summit entitled "What's Next For Your Business," early Wednesday at Elite Catering in Voorhees.

The summit featured a panel discussion with individual commentary from each panelist followed by a lively question and answer period. Voorhees Business Association Board Member and former Voorhees Township Mayor Gary Finger introduced the visiting dignitaries to the over 40 Business Association members and non-members in attendance. Topics of discussion ranged from the state budget to consistency in small business regulatory policy, the upcoming federal regulatory reform bill and the new healthcare reform package.

"The VBA Business Summit is an attempt to open real lines of communication between our business community and elected officials at all levels," remarked Finger. "Honest, open

dialogue is the best way to maximize the effectiveness of companies who seeks to grow and encourage our representatives to enact legislation on our behalf. “

The Voorhees Business Association is a community-based partnership of business, civic and educational segments of Voorhees Township dedicated to:

- Providing networking opportunities for business persons and businesses in Voorhees Township and the surrounding area to meet and discuss concerns and interests of a commercial, economic, civic or cultural nature.
- Facilitating a dialogue between the local business community and elected officials.
- Channeling the energies and resources of member businesses into improving the local community.

“I enjoyed being a panelist at the VBA Business Summit,” commented Mignogna. “It was a great opportunity for our business community to have a dialogue with local, county, state and federal elected officials.”

The goal of the Voorhees Business Association is to keep members informed and to provide a valuable link between business and community. For more information, contact Bob Earl, Chairman, at 856-489-8511 or Robert.Earl@ExpressPros.com.
